TAPEPRO DRYWALL TOOLS

Incorporated in 2001, Tapepro Drywall Tool Company proudly offers contractors and distributors worldwide the finest Automatic Taping Tools on the market today. With over 50 years of expertise in the Drywall industry, Tapepro Drywall Tools are designed to reduce work fatigue and increase productivity keeping labour costs to a minimum. Utilising state of the art technology, premium quality aluminium and stainless steel components, Tapepro Drywall Tools are field tough. Tapepro Drywall Tools provide a professional finish while increasing your productivity to work 3 to 4 times faster than taping by hand.

The Tapepro line of tools is complete and incorporates design expertise that provides the contractor with greater reliability. At Tapepro Drywall Tools we stand by our tools and proudly offer a 3 year warranty.

Tapepro Drywall Tools is a proud Australian company dedicated to developing and manufacturing the worlds' leading Automatic Drywall Tools. Through continuous research and development, stringent quality control and the largest after market technical support program available, Tapepro Drywall Tool Company is committed to providing contractors worldwide with tools to give them the "Professional Edge".

Code No.	Description
AT-2000	Automatic Taper

Automatic Taper

The BEST Automatic Taper on the market! Featuring a superior design the Tapepro Automatic Taper simultaneously applies paper tape and the correct amount of joint compound to all flat and internal angle joints on walls and ceilings.

Features:

- Rugged design built to last
- Unique quick release head for ease of cleaning
- Can be used with chemical setting (base) compounds
- Easily removed cover plate for easy access to internal parts
- Easy to use control tube with extra wide rollers to reduce wear
- Simplified design with less moving parts
- Easily adjustable backup roller tension
- Stainless steel drive chain
- Larger filler valve delivers faster loading
- Improved feed mechanism allows for incremental feeding of tape without causing rips

Joint compound consistency is an important part of achieving a good finish. Automatic taping tools require a thinner compound (more water) than setting by hand. The consistency should be smooth and creamy, slightly thinner for taping, slightly thicker for finishing. Ensure you follow manufacturers recommendations.

MBP	Mud Box Pro

Mud Box Pro

The Mud Box™ has evolved! The easiest taping tool to learn to use and the easiest to clean. The Mud Box™ Pro simultaneously applies paper tape and joint compound to all flat and internal angle joints.

Features:

- Rugged construction using stainless steel, anodised aluminium and industrial plastics
- Simple mud bath operation - fewer moving parts
- Can be used with chemical setting (base) compounds
- **Rear controls for operating creaser wheel and tape cutter**
- **Feed roller allows you to easily continue taping after cut-off**
- **Improved spool retaining springs to stop bending**
- **Increased reach over old design**

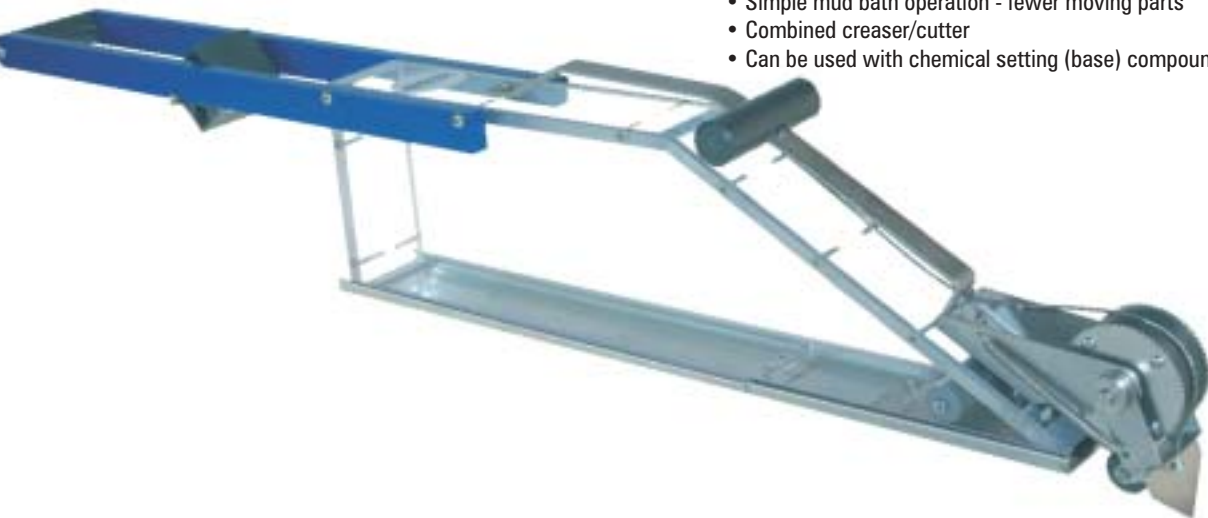

Code No.	Description
WMB-L	Mud Box

Mud Box

The Tapepro Mud Box™ simultaneously applies paper tape and the correct amount of joint compound to all flat and internal angle joints. It can be used with 75 or 150m rolls of paper tape, and features a spring loaded combination creaser wheel and tape cutter. It is easily cleaned and can be used with chemical setting compounds.

Features:

- Rugged construction using stainless steel, aluminium and industrial plastics
- Simple mud bath operation - fewer moving parts
- Combined creaser/cutter
- Can be used with chemical setting (base) compounds

Nail Spotters

The Tapepro Nail Spotters are designed to fill nail and screw indentations, allowing quick application over multiple nail lines.

Features:

- Superior peened construction
- Axle mounted pressure plate for the smoothest operation
- Adjustable inter-lock handle position
- Larger 1 1/8" tube for reduced fatigue and ultimate comfort
- Wheels on a fixed axle for smooth gliding
- Kick plate for quick wall positioning
- Easy opening door for quick cleaning

NS-H-75	Nail Spotter w/Handle 75mm

Code No.	Description
LP-EZ	Loading Pump
FBF	Flat Box Filler
GS	Gooseneck

Loading Pump

The Tapepro Loading Pump is truly the world's toughest pump. Featuring a superior design this robust tool can be used with quick-set or air drying compound to fill tools in the Tapepro range. It can be fitted with two attachments: the Gooseneck (GS), which is used for filling the Automatic Taper, and Compound Tube; and the Flat Box Filler (FBF), for Flat Boxes, Nail Spotters, and Mud Boxes. With the nozzle removed, the FBF can be used to fill the Corner Box. The latest feature is our new self priming pump spring. This feature eliminates the need to prime your pump providing contractors with a pump that is "Primed for Action!"

Features:

- Rugged Aluminium and stainless steel components
- Powder coated pump tube
- Quick release detent ring pin in handle for easy stowage
- Longer pump handle for added leverage and less fatigue
- Precision machined head
- Quick release clip mounted on the pump head for easy cleaning

Code No.	Description
FFB-200	Flat Finishing Box 200mm
FFB-250	Flat Finishing Box 250mm
FFB-300	Flat Finishing Box 300mm

Flat Finishing Boxes

The Tapepro Flat Boxes apply joint compound to all flat recess or butt joints, automatically crowning the joint and feathering out the edges. The blade tension is easily adjusted for the perfect coat.

Features:

- High capacity
- Anodised marine grade aluminium plates peened together for superior strength and durability
- Lid mounted on axle with bearings opens and operates smoothly
- Wheels run inside blade width
- Unique spring design allows fully opening lid for easy access
- Available in 200mm, 250mm & 300mm

Code No.	Description
FFBH-900	Flatbox Handle 900mm
FFBH-1050	Flatbox Handle 1050mm
FFBH-1200	Flatbox Handle 1200mm
FFBH-1500	Flatbox Handle 1500mm
FFBH-1800	Flatbox Handle 1800mm

Flat Box Handles

The Tapepro Flat Boxes are designed to be used with the Tapepro range of Flat Box Handles. To increase reach, the handles can also be fitted with Handle Extensions: HE-600 (600mm) and HE-1200 (1200mm).

Features:

- Brake can be applied in any position for full range of movement not dependant on teeth
- Easy attachment of handle extensions

Code No.	Description
FFBG	Flat Box Bead Guides

Flat Box Bead Guides

The Tapepro Flat Box Bead Guides easily attach to the sides of your Tapepro, BlueLine or Premier flat boxes to make it quicker and easier to do external corners or shadow bead.

Code No.	Description
CR-H	Corner Roller w/handle

Corner Roller

For bedding paper tape into internal angles, there's nothing better than a Tapepro Corner Roller. Designed for use after the Automatic Taper or Mud Box, the self-aligning rollers force compound into the apex of the corner and force excess compound out. Nothing beds in paper tape or Beadex better.

Features:

- Die cast aluminium body for durability and performance
- Durable solid stainless steel rollers and bushings provide smoother operation
- Swivel attachment adjusts to angle

Code No.	Description
CFH-1200	Corner Finisher Handle

Corner Finisher Handle

The Tapepro Corner Finisher Handle is designed for use with corner finishers and straight glazers and features an Acetal ball for reduced friction and wear. NEW - Extension version (XH) 960mm - 1600mm

Glazers

The Tapepro Straight Glazers™ let you glaze off taped internals with ease. After applying tape and bedding it in with the Corner Roller, simply run the Straight Glazer from top to bottom and it will simultaneously wipe off excess compound and feather the edges, leaving you with a perfect first coat. Use the 75mm or 90mm for finish coats. When used with a Corner Box or Compound Tube, the Tapepro Corner Glazer applies compound and feathers the edges in one pass - just like a Corner Finisher.

Features:

- Made from durable stainless steel and Acetal
- Easy snap fit on handle

Code No.	Description
SG-55	Straight Glazer 55mm
SG-75	Straight Glazer 75mm
SG-90	Straight Glazer 90mm
CG-75	Corner Glazer 75mm

Code No.	Description
CA-T	Compound Tube

Compound Applicator Tube

The Tapepro Compound Applicator Tube is a robust and simple multi purpose tool. It can be fitted with a range of tools for applying joint compound or cornice cement:

- Angle Head
- Corner Glazer
- Corner Finishers
- Cornice Heads

Code No.	Description
AH-38	Angle Head

Angle Head

The Tapepro Angle Head applies ribbons of joint compound to both sides of internal angle joints, horizontal or vertical, prior to applying paper tape or Beadex by hand.

Code No.	Description
CF-65	Corner Finisher 65mm
CF-75	Corner Finisher 75mm
CF-90	Corner Finisher 90mm

Corner Finisher

The Tapepro Corner Finisher is the finest precision built finisher on the market! When fitted to the Corner Box, joint compound is forced through the Corner Finisher into the angle, the finisher then feathers the edges to produce a smooth joint. The 65mm Corner Finisher is designed to be used in conjunction with the Corner Finisher Handle to glaze off excess compound and feather the edges after the corner roller. The 75mm and 90mm apply a finishing coat when fitted to the Corner Box.

Features:

- Precision machined billet aluminium head provides durability and performance
- Fabricated stainless steel frames provide superior fit ensuring smooth operation
- Carbide blades provide maximum wear resistance
- Anodized for increased durability

Corner Box

The Tapepro Corner Box is designed to deliver joint compound to the Corner Finishers or Corner Glazer. Featuring our rugged peened plate construction and advanced axle design the Tapepro Corner Box delivers effortless performance.

Features:

- Super tough peened construction
- High capacity for higher productivity
- Long reach cone for tight corners
- Safety cable to attach to Corner Finisher
- Easy open/close pressure plate for complete cleaning

Code No.	Description
CA-H	Corner Box w/Handle

Code No.	Description
CH-55	Cornice Head 55mm
CH-75	Cornice Head 75mm
CH-90	Cornice Head 90mm

Cornice Heads

The NEW Tapepro Cornice Heads make installing cornice faster and easier:

- Install cornice in half the time of traditional methods
- Takes the physical wear and tear out of cornice installation by reducing lifted cornice weight and improving on the clumsy hand buttering process
- Applies a consistent measured bead of adhesive to the wall and ceiling
- Provides more control over adhesive wastage

Code No.	Description
FHX	Pro-Reach Flatbox Handle

NEW Pro-Reach™ Flat Box Handle

The NEW Tapepro Pro-Reach extendable Flatbox handle extends from 980mm to 1600mm making it easy to switch from wall to ceiling joints. It uses the same comfortable tube size and grip, and the time proven all position brake head.

Features:

- Brake can be applied in any position for full range of movement not dependant on teeth
- Anodised tubes
- Anodised head for greater wear resistance
- Extends from 980-1600mm
- Weighs 1.4kg
